RE: Saad Site, Nashville, Tennessee

Dear Kelly:

I am writing on behalf of my client, Sequa Corporation ("Sequa"). Sequa was formerly Sun Chemical Corporation ("Sun Chemical"). R.R. Donnelley & Sons Company ("R.R. Donnelley") has informed you that the General Printing Ink ("GPI") division of Sun Chemical was the generator of waste allegedly hauled from R.R. Donnelley's Gallatin, Tennessee facility to the Saad site.

Sequa has begun an investigation to determine if the waste identified by the Saad truck driver's affidavit is attributable to R.R. Donnelley or to GPI. Until the investigation is complete, Sequa cannot determine whether it will assume any responsibility for R.R. Donnelley in this matter. If it appears that waste sent to the site is attributable to GPI, Sequa will cooperate with the agency.

If you have any questions regarding this matter, please do not hesitate to contact me at (404) 572-3585.

Sincerely,

  
Mary Jane Norville
